Virtual Ocean Strategy – the way to reset strategies with a purpose driven “traditional industry structures & resource constraints are irrelevant” mindset?

(Draft For Discussion Purposes Only)

Charles Prabakar
Executive Global Partner/Managing Director
Willis Consulting LLC
“Virtual Ocean Strategy” at a glance...

**Situation**
+ While the phrase “strategy reset” means different things to different companies, most strategy practitioners agree, that there are not many comprehensive approaches available within the market place designed to reset both the strategic plan, and “design of the business purpose seed”, simultaneously, with an integrated/systemic mindset, to meet the ever changing business needs of the 21st century social media driven connected world!

**Complication**
+ Lack of an Integrated systemic mindset within the three purpose dimensions of leadership, strategy, & innovation.
+ Lack of an agreed upon purpose statement.
+ Lack of the purpose seed not being germinated properly (in spirit and essence) into an organization with a unique culture with a unique DNA.
+ Lack of an approach with a “tearing down the walls of industry structures”
+ Lack of a multi dimensional balancing model, as opposed to the traditional 2D “value-cost” balancing model (i.e. tradeoff in ROS and “doing both” in BOS).

**Resolution**
+ We suggest a contrarian Deconstructionist/hybrid approach (between Red ocean and Blue Ocean) with a “Virtual Ocean” mindset “—by resetting company’s purpose statement (vision, mission, values, codes and BHAG), using nature’s Seedal chain principle (Seed-Season-Sequel), with a “traditional industry structures and resource constraints are irrelevant” mindset along with a multi dimensional balancing model in the five dimensions of value, cost, velocity, growth and purpose.

---

Lack of an Integrated systemic mindset within the three purpose dimensions of leadership, strategy & innovation, is the #1 reason, why most strategy resets, do not yield its intended outcome!
### MBA Step

<table>
<thead>
<tr>
<th>Motivation</th>
<th>Red Ocean</th>
<th>Blue Ocean</th>
<th>Virtual Ocean</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Compete aggressively</strong> in order to grab value from competitors, within an <strong>existing value ocean pie</strong>.</td>
<td><strong>Dive deeper</strong>, in order to tap the untapped value within an <strong>existing value ocean pie</strong>.</td>
<td><strong>Fly faster</strong> into the virtual space, in order to tap the untapped value, <strong>by doubling the size of the value pie</strong>, using our firm’s <strong>VOS, VRE, Capitalism Plus, Purpose Innovation</strong> and <strong>VizPlanet</strong> platforms.</td>
<td></td>
</tr>
</tbody>
</table>

| Belief | Beat the competition at any cost. | Make competition irrelevant. | Make traditional Industry structures and resource constraints irrelevant. |

| Action | **Trade-off value and cost**. | **Balance value and cost**. | **Balance the five dimensional value cycle** i.e. “value-cost-velocity-growth-purpose” using five value stations (4 BSC+ purpose). |

How does VOS stack up against BOS and ROS within this MBA framework?

Stacking strategy frameworks with an MBA lens, not only helps us to diagnose & prescribe effective and efficient strategies, but also, helps us to prioritize, where we need to spend our time & energy (i.e. which step within MBA) to maximize value!
Virtual Ocean Strategy (VOS)  
Using Nature’s Seedal Chain *(Seed-Season-Sequel)* Principle

1. **Design the Business by resetting the Triune Purpose Seed** (vision, mission, values, codes and BHAG)

2. **Plan using the Integrated Three Track Seasonality** (Leadership, Strategy and Innovation) driven “Industry structure is irrelevant” mindset

3. **Execute/Reap with the Triune Shared Value (TSV) driven “collaborative heartbeat(sequel)” for the best outcome (Sequel)**

---

**Purpose manifesting as Energy**

**Purpose manifesting as Value**

**Purpose resulting in as Triune Shared Value**

Reset the purpose seed with a “seedal chain” spirit, formulate the strategy with an integrated seasonality driven “industry structure is irrelevant” mindset, and execute and reap with a TSV driven “collaborative heartbeat(sequel)”, thus increasing the size of the value pie by multi-fold!
Design the Business by resetting the Triune Purpose Seed using leadership, strategy and Innovation Frameworks

TPF’s Purpose Driven Leadership (PDL) Culture Framework

Triune Purpose Seed in this context being –
- Vision, 
- Mission 
- Values 
- Codes 
- BHAG

TPF’s Purpose Driven Innovation Portfolio (PIP) Framework

TPF’s Purpose Driven Portfolio-Thread View (PTV) based Strategic Planning Framework

Lead with the Purpose Culture, Strategize from the Core & Innovate with the Edge!
Plan using Integrated 3 Track Seasonality driven Cyclical VOS Frameworks

1. Purpose

2. Customer

3. Growth /Learning/ Collaboration

4. Value Chain

5. Financial

6. Q by Q results

Shareholder Value = Profit x (1-g/ROIC)/ (WACC-g)

Cust. Value = Jobs-to-be done/Price

ROIC = Margin x Velocity

2. "Jobs-To-Be-Done" Value – Ideate it (Hard Land )

4. Incubator Value – Test it – (Weedy Land)

3. Vision Value – Slot it (Shallow Land)

5. Commercialization/Commodity Value – Iterate it – (Fertile Land)

1. Theme It

1. Confidence

2. Commitment

3. Caliber

Legend:
Green – Leadership Track
Purple – Innovation Track
Black – Strategy Track
Execute with the Triune Shared Value (TSV) mindset for the best VOS Sequel!

**Triune Shared Value (TSV)** = Spirituality driven Cultural Value + Shareholder Value + Societal Value

**TPF** with its Triune Purpose Seed

**Strategy** (Redeemer/Sustainer)

**Innovation** (Encourager/Disruptor)

**Culture** (Creator/Orchestrator)

Spiritual/Emotional Value = Spirituality/Emotion energy driven Cultural Gain x (1 - Spirituality driven culture Growth/Return on Spirituality/emotion driven culture (Collaborative Love Threshold-Spirituality driven culture Growth)

**TPF's Purpose Driven Innovation Portfolio (PIP) Framework**

**TPF's Purpose Driven Portfolio-Thread View (PTV) based Strategic Planning Framework**

*WACP= Weighted Average Cost of Purpose

Lead with the Purpose Culture, Strategize from the Core & Innovate with the Edge!
In spite of using these great frameworks, some strategy resets still do not produce its intended outcome? Why?

In Porter’s words, the essence of strategy is choosing what not to do, and so, here are five “what not to do’s” …..

• What Not #1 -> Do not reset with a single dimensional strategy mindset, as opposed to an integrated systemic approach, in the three dimensions of leadership, strategy and innovation, as addressed by our TPF framework within VOS.

• What Not #2 -> Do not reset strategy without resetting the purpose seed, as addressed by our Purpose driven seadal chain/scientific energy management principle driven Portfolio Thread view based strategic planning framework.

• What Not #3 -> Do not go after an existing market, as opposed to going after the virtual ocean market and/or experience pools, which do not exist today with a motivational momentum themes creating experience moments or movements-> as addressed by our Experience Pool Portfolio (EPP) framework and our Purpose Innovation.

• What Not To Do #4->: Mixing up SCA vs. capability vs. competency within organic and inorganic growth strategies and not following a portfolio approach in managing capabilities – as addressed by our Capability Pool Portfolio (CPP) Framework SCA vs. Competency vs. capability is equivalent to Grandma’s hand trick of sautéing for the right duration with right temperature vs. Recipe vs. Ingredient.

• What Not To Do #5-> Executing without a real time performance visibility -> partly addressed by our big data driven real time valuation based Corporate performance management framework.
Alright…. How does it then stack up against Red Ocean and Blue Ocean?
